

Focus between Jan & May

Subject: BTEC Sport

All 4 of the examination units were completed in Year 12, so our work over the next 5 months is about drawing together the 14 units we are required to cover and ensuring the work ethic of our students remains focused so that we are on course to achieve the highest possible grades.

Activities to complete	Spend time now reading and acting upon feedback from first submission of assignments we are currently completing. This is the best information to improve grades.
Online Resources	All of the booklets and assessment criteria has been shared with students on Teams. This can be accessed from school or home.
Key Reading	We are aiming for the Distinction. The best advice here is to intensively read the assessment criteria to ensure that the assignments you are writing link to the assessment criteria and you are making practical links throughout.
