

Information to Parents / Pupils

History : Organised and Ready for Year 10 Summer Assessment

Being Organised

All students should have an exercise book – this is their most important revision resource as it contains detailed information on all of the topics covered in Year 10.

If there are any gaps or topics missing from these books, then please speak to your History teacher.

In addition all students should have a textbook, or equivalent, for each of the topics covered.

Content

The topics covered in the Summer Assessment on Medicine Through Time are:

- Medieval Medicine
- The Renaissance
- The Industrial Period
- The 20th Century
- The Western Front

Revision

For the Summer Assessment students will be required to have a good working knowledge of the topics we have covered, this can be obtained through revising via their exercise books, textbooks and accessing the revision material on the Files section of Teams (this includes specific revision guides, tips on how to answer the different exam questions and model answers).

In addition, each week, the students will be given a further revision sheet per topic in preparation for the mock exam. This is to be completed for homework.
